

Microfluidic Design & Microfabrication Workshop

You are warmly invited to a collaborative workshop on Microfluidic Design & Microfabrication. An initiative proudly co-organized by:

IMPERIAL

When?

Friday, 24th October 2025
10:00 am - 12:00 pm (London Time)

Where?

Imperial College London
Exhibition Rd, South Kensington, London SW7
2AZ, Royaume-Uni
CRUK Microfluidics laboratory, Bessemer
Building L6

Join us for a hands-on session where we will:

- Design a microfluidic device with FLUIDEVICE, built on decades of research and simulation expertise.
- Work with an already 3D-printed mold to create high-resolution microfluidic molds.
- Fabricate Flexdym™ chips with the Sublym system for rapid prototyping and reliable sealing, no cleanroom required.

This workshop reflects our collective commitment to innovation through shared expertise and collaboration.
